

EASILY MEASURE PERFORMANCE

Business Analytics provides the dashboards and reports needed to effectively run real estate organizations. The Workspeed Building Pulse, featuring multiple Key Performance Indicators (KPI), enables portfolio evaluation based on established success criteria. The configurable nature of our dashboards and reports allow you to view data the way you need it in order to make better informed business decisions.

- Boost Operational Control
- Enhance Staff Productivity
- Increase Tenant Satisfaction
- More Informed Decisions

FEATURES & BENEFITS

BUILDING PULSE

Track and measure portfolio health according to specific success criteria, identify immediate opportunities for improvement, and create an efficient operational experience.

PORTFOLIO MANAGEMENT

Real-time monitoring of cross-property operations via customizable dashboard views.

PERSONALIZED DASHBOARDS

Customizable dashboards allow for review of live building and operational details. Property, Tenant, and Staff level information provide focus areas for assessment.

ASSET ANALYTICS & AUDIT TRAIL

Easy access to an extensive variety of standard and customizable dashboards and reports. Access a complete maintenance history of building assets.

KEY PERFORMANCE INDICATORS

Understand operational drivers through tracking and managing key performance indicators indicative of portfolio needs.

REPORT LIBRARY

An extensive repository of reports allow for all operational information to be accessed as needed. Reporting filters allow each report to be fine tuned to business needs. Manage regularly used reports by scheduling their generation and distribution.
