

MRI VISITOR MANAGEMENT WORKSPEED

ENHANCE YOUR BUILDING SECURITY

Visitor Management enhances overall building security by providing modern, intuitive tools to support lobby traffic, guest management, and access control.

- Reduce security liability
- Optimize lobby traffic
- Enhance staff productivity
- Enable transparent operations

FEATURES & BENEFITS

ELECTRONIC GUEST PREREGISTRATION

Simple interface allows visitor preregistration for single or recurring access. Security desk personnel can easily locate and check-in both on-the-fly and preregistered visitors.

VISITOR BADGING & ID SCANNER SUPPORT

Customizable badges are generated for visitors upon check-in. Badges support bar codes and visitor photos for enhanced security. Quickly locate and populate visitor information via ID scan for even more efficient guest processing.

AUTOMATED NOTIFICATIONS

Timely notifications remind hosts upon check-in of their guest(s). Visitors receive confirmation emails.

WATCHLIST FILTRATION

Maintain a safe and secure building by preventing unwelcome guests from entering the premises.

TENANT DIRECTORY

A branded building directory of tenant companies and employees is automatically kept up-to-date.

ACCESS CONTROL INTEGRATION

Available integrations into access control security systems for end-to-end building security.

LOBBY TRAFFIC ANALYTICS

Easy access to an extensive variety of standard and customizable dashboards and reports.
